

International Tumour Profiling Requisition

Complete and fax or e-mail requisition with copy of pathology report to 00 800 12 12 32 32 or 00 41 21 533 53 01 or EUCustomerServices@carisls.com. The pathology report must bear the name of the originating institution and be stamped "controlled copy." Please send the original copy of the requisition with the specimen.

CARIS MOLECULAR INTELLIGENCE® TUMOUR PROFILING OPTIONS *(Choice Required)*

Select from the list below. The biomarkers included in the profiles may change from time-to-time. Before ordering, please refer to the Website, www.CarisMolecularIntelligence.com/profilemenu, to view the most up-to-date listing of biomarkers that will be performed by tumour type.

SERVICES	
Solid tumour biomarker analysis for therapeutic decision support and clinical trials matching <i>(for details, visit www.CarisMolecularIntelligence.com/profilemenu)</i>	
<input type="checkbox"/> MI Profile™ Multiple platform biomarker analysis (Mutation Analysis by NGS; Fusion Analysis by NGS; Pyro Sequencing; Fragment Analysis; IHC; ISH)	<input type="checkbox"/> Next-Generation Sequencing Analysis (NGS Only) Next-Generation Sequencing only analysis (<i>Mutation, CNV [DNA]; Fusion Analysis [RNA]</i>)
The definitive list of biomarkers analyzed by tumour type are available online at www.CarisMolecularIntelligence.com/profilemenu.

<small>Notice: This requisition constitutes an order for services. I certify (a) that the services are medically indicated and necessary and will assist me in treating my patient, (b) that I maintain and will make available patient medical records documenting the foregoing, and (c) I have supplied information to the patient regarding testing and if required by law, the patient has given consent for testing to be performed.</small>	Physician or Practitioner Signature	Print Name	Date
---	-------------------------------------	------------	------

FINAL REPORT WILL BE DELIVERED IN ENGLISH. PLEASE SEE THE REVERSE FOR PATIENT CONSENT REQUIREMENTS AND OPTIMAL SPECIMEN REQUIREMENTS. Terms and conditions apply. Visit <http://www.CarisLifeSciences.com/order-now/client-services/> to view the terms and conditions in full.

Acknowledgment of Consent

By submitting this requisition, you, as the patient's physician, represent and verify that the patient has provided clear, unambiguous and explicit consent to send the patient's specimen and sensitive medical and other personal information to Caris Life Sciences, and to transfer that information to the United States for processing. Additionally, you represent that, as applicable to provisioning of this service, you and your office have complied with all applicable national and local privacy requirements and regulations.

For physicians and/or offices established in the European Economic Area, you and/or your office(s) (as applicable) agree that this engagement incorporates by reference the European Commission Standard Contractual Clauses for the Transfer of Personal Data to Processors Established in Third Countries (2010/87/EU), where Caris is "data importer," each of you and/or your office(s) are the "data exporter," the personal data processing is as described herein to provide the services requested (including as necessary for invoicing, debt collection, anonymization/de-identification, and as otherwise required by law), and the security measures are that Caris has reasonable technical, administrative and organizational security measures.

Office Checklist for Caris Molecular Intelligence

- Requisition (Completed, Signed and Dated)
- Pathology Report(s)
- Sufficient Tumour Specimen (Detailed Below)

Formalin Fixed Paraffin Embedded (FFPE) Samples

Sufficient tumour must be present to complete all analysis. If you have any questions, please contact Customer Services at 00 800 12 12 30 30.

SPECIMEN TYPE	SPECIMEN REQUIREMENTS
Fixed Tissue	One (1) tumour-containing formalin fixed paraffin embedded block (FFPE) from most recent surgery or biopsy. Successive four (4) micron sections will be created from the block until sufficient material for the testing orders is obtained. For the molecular analysis, tumour cells will be excised by microdissection until a total area of at least 50mm ² is obtained.
Unstained Slides	Unstained, positively charged, unbaked slides from one single, tumour-containing formalin fixed paraffin embedded block; 4 micron sections <ul style="list-style-type: none"> • MI Profile™ - 44 slides • Next-Generation Sequencing only - 15 slides Note: At least a 5mm x 5mm section of tissue per slide is required. For small biopsies (tissue area < 5 mm x 5 mm) please cut two sections per slide for at least one half of the slides to ensure sufficient material for molecular assays.
Core Needle Biopsy	Four to six (4-6) biopsies formalin fixed paraffin embedded <ul style="list-style-type: none"> • 18 gauge needle preferred
Fine Needle Aspirate (FNA)	One (1) formalin fixed paraffin embedded block containing sufficient tumour
Malignant Fluid Cell Block	One (1) formalin fixed paraffin embedded cell block containing sufficient tumour (20% or more tumour nuclei).
Bone/Bone Metastasis	One (1) formalin fixed paraffin embedded block of tumour (primary bone malignancy or metastasis to the bone) decalcified using EDTA based method(s) or non-decalcified specimen.

Fresh Samples

Sufficient tumour must be present to complete all analysis. **Due to shipment times, contact customer services at 00 800 12 12 30 30 prior to biopsy of fresh tissue.**

SPECIMEN TYPE	SPECIMEN REQUIREMENTS
Fresh Tissue	Two (2) or more samples with a maximum thickness of ~3mm (height, width, length) and submit in 10% neutral buffered formalin. Please do NOT send specimen larger than the recommended size.
Core Needle Biopsy	Four to six (4-6) biopsies <ul style="list-style-type: none"> • 18 gauge needle preferred
Bone/Bone Metastasis	Two (2) or more samples with maximum thickness of 3mm (height, width, length) and submit in 10% neutral buffered formalin (DO NOT DECALCIFY)

Insufficient Specimen Quantity – Prioritisation of Tests

In the event that a specimen is received with an insufficient quantity of tissue or insufficient percent tumour required to perform the entire profile or individual tests indicated on the requisition, Caris Life Sciences® will fax the ordering physician the proposed list of tests. The physician may amend this list to include any tests that are offered within the test menu. The ordering physician should review the proposed list of tests within 72 hours in order to provide timely results. Please note: *turnaround time may be longer for specimens with limited tissue.*

The results for biomarkers tested under this requisition will be provided in a report associating one or more treatment agents to biomarkers based on published medical evidence, which may include published studies performed in the tumour type present in the tested sample or derived from a different tumour type. Decisions regarding care and treatment should not be based solely on selection of a test such as this test or the information provided related to this requisition. Decisions on patient care and treatment must be based on the treating physician's independent medical judgment, taking into consideration all relevant patient information, such as family history, physical examinations, results of other diagnostic tests, and patient preferences, and in accordance with the applicable standard of care. The selection of any or none of the matched agents is ultimately and solely in the discretion of the treating physician. Physician or practitioner hereby acknowledges and agrees to comply with any local, state/provincial, or national laws or regulations, rules or order of any governmental body, having jurisdiction over activities considered under this requisition.
